

**BIOGRAPHICAL SKETCH**

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2.  
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

|                                                                                                                                                   |                                          |         |                |
|---------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|---------|----------------|
| NAME<br>C. Gustavo Pesce, Ph.D.                                                                                                                   | POSITION TITLE<br>Senior Research Fellow |         |                |
| eRA COMMONS USER NAME                                                                                                                             |                                          |         |                |

| University of Buenos Aires, Argentina                                                                                                             | M.S.                                     | 1993    | Biology        |
| University of Buenos Aires, Argentina                                                                                                             | Ph.D.                                    | 1997    | Biology        |
|                                                                                                                                                   |                                          |         |                |

**NOTE: The Biographical Sketch may not exceed four pages. Items A and B (together) may not exceed two of the four-page limit. Follow the formats and instructions on the attached sample.**

**A. Positions and Honors.** List in chronological order previous positions, concluding with your present position. List any honors. Include present membership on any Federal Government public advisory committee.

Positions

1991-1992 Undergraduate Research Fellow, University of Buenos Aires, Argentina  
Department of Biology  
Laboratory of Dr. Alberto Kornblihtt  
"Study of the binding of proteins to a DNA sequence highly repeated in the genome of rodents from the genus *Ctenomys*"

1993-1997 Graduate Student, University of Buenos Aires, Argentina  
Department of Biology  
Laboratory of Dr. Alberto Kornblihtt  
"Study of the interaction of transcription factors that regulate transcription from the fibronectin promoter"

1998-2000 Postdoctoral Fellow, University of California, San Francisco  
Department of Biochemistry  
Laboratory of Dr. Peter Walter  
"Regulation of mitochondrial abundance"

2001-2003 Research Associate, Howard Hughes Medical Institute, University of California, San Francisco  
Laboratory of Dr. Peter Walter  
"Regulation of mitochondrial abundance"

2003-present Senior Research Fellow, The Molecular Sciences Institute

Honors

1993-1997 Graduate Student Fellowship, CONICET and the University of Buenos Aires

1998-2000 Postdoctoral Fellowship, Jane Coffin Childs Memorial Research Fund

**B. Selected peer-reviewed publications (in chronological order).** Do not include publications submitted or in preparation.

1. Rossi, M.S., Pesce, C.G., Reig, O.A., Kornblihtt, A.R., and Zorzopulos, J. Retroviral-like features in the monomer of the major satellite DNA from the South American rodents of the genus *Ctenomys*. *DNA Seq.* 1993, 3:379-382.
2. Muro, A.F., Pesce, C.G., and Kornblihtt, A.R. DNA sequencing by the chemical method: a 10 minute procedure for the G + A reaction. *Trends in Genetics (technical tip)* 1993, 9:337
3. Pesce, C.G., Rossi, M.S., Muro, A.F., Zorzopulos, J., and Kornblihtt, A.R. Binding of nuclear factors to a satellite DNA of retroviral origins with marked differences in copy number among species of the rodent *Ctenomys*. *Nucleic Acids Res.* 1994, 22:656-661
4. Rossi, M.S., Pesce, C.G., Kornblihtt, A.R., and Zorzopulos, J. Origin and evolution of a major satellite DNA from the South American rodents of the genus *Ctenomys*. *Rev. Chil. Hist. Nat.* 1995, 68:171-183
5. Kornblihtt, A.R., Pesce, C.G., Alonso, C.R., Cramer, P., Srebrow, A., Werbajh, S., and Muro, A.F. The fibronectin gene as a model for transcription and splicing studies. *FASEB Journal* 1996, 10:248-257
6. Alonso, C.R., Pesce, C.G., and Kornblihtt, A.R. The CCAAT-binding proteins CP1 and HF-1 cooperate with ATF-2 in the transcription of the fibronectin gene. *J. Biol. Chem.* 1996, 271:22271-22279
7. Cramer, P., Pesce, C.G., Baralle, F.E., and Kornblihtt, A.R. Functional association between promoter structure and transcript alternative splicing. *Proc. Natl. Acad. Sci. U.S.A.* 1997, 94:11456-11460
8. Melen, G.J., Pesce, C.G., Rossi, M.S., and Kornblihtt, A.R. Novel processing in a mammalian nuclear 28S pre-rRNA: tissue-specific elimination of an 'intron' bearing a hidden break site. *EMBO Journal* 1999, 18:3107-3118.
9. Pesce, C.G., Nogues, G., Alonso, C.R., Baralle, F.E., Kornblihtt, A.R. Interaction between the (-170) CRE and the (-150) CCAAT box is necessary for efficient activation of the fibronectin gene promoter by cAMP and ATF-2. *FEBS Lett.* 1999 Sep 3;457(3):445-51.
10. Alonso, C.R., George, J., Pesce, C.G., Bissell, D.M., and Kornblihtt, A.R. Regulation of fibronectin expression in primary cultures of liver cells: promoter occupation and function in sinusoidal endothelial cells and hepatocytes. *Biochem. Biophys. Res. Commun.* 2002, 295:1077-1084.
11. Colman-Lerner, A., Gordon, A., Serra, E., Chin, T., Resnekov, O., Endy, D., Pesce, C.G. and Brent, R. Regulated cell-to-cell variation in a cell-fate decision system. *Nature.* 2005 Sep 29;437(7059):699-706. Epub 2005 Sep 18.
